### We Appreciate Your Business!

Oesterling's Feed began as a family owned and operated business. It was established in 1980 when Leonard and Evelyn Oesterling purchased the first location of business from Warren and Rosemarie Smith (formally Smith's Farm Service). Leonard was employed by Warren Smith operating the mobile mill since he graduated from high school in 1963. In September 1984, Leonard and Evelyn purchased Oesterling's Lawn & Garden from Clyde and Lois Oesterling. Upon the purchase of the business they expanded the line of merchandise to include a variety of other products. In 1988, the third location of Oesterling's Feed & Farm was purchased in Grove City, PA. The business also includes a supply truck that carries animal health products and milk house supplies. At present, Oesterling's employs 18 people.

We at Oesterling's strive to operate a responsible, honest and personalized business. We would like to thank all the employees that have helped us through the years to achieve this goal. Leonard Oesterling supervises the operation of the business and Evelyn manages the office. Jim Oesterling operates the mobile mill, which does custom grinding and mixing on local farms. Lenny also operates a mobile mill, and delivers feed, minerals and other commodities to the local farmers. Amy Oesterling Hazlet helps manage the store at Fenelton. She also schedules deliveries, takes customers' orders and orders parts for the milking equipment.

We would like to take this opportunity to thank all our loyal customers for their support through the years.
